

Sim2do

Boeing 737-800

INFORMATION SHEET

Now, you can experience piloting the real thing in a truly immersive, simulator, with fully functional controls and tactile feedback, surrounding you in the sights, sounds and feel of the iconic machine. A versatile and agile aircraft that has been a mainstay of the British Army for over 30 years. With its twin-engine design and advanced avionics, the Lynx is capable of performing a wide range of missions, from reconnaissance and surveillance to combat and search and rescue. The helicopter's sleek and aerodynamic profile allows it to fly at high speeds and low altitudes, making it ideal for operating in challenging environments.

Mission

Your mission will incorporate a 20 minute pre-flight briefing including instrumentation familiarization. The remainder of your experience will be at the controls of the Lynx helicopter. Your flight will be done in real time and it will be like flying the real thing. You will learn how to get the Lynx off the ground, flying straight and level, climbing and descending, practicing landing zones then reducing to a helipad. Depending on time you will then chase ships and land on them.

Limitations

At Sim2do Flight Simulators, safety is our utmost priority. To ensure a safe and enjoyable experience for everyone, we ask that our customers meet the following restrictions:

Maximum Weight 130kg

Minimum Height 130cm

Maximum Height 200cm

Good eyesight

No under 10 and under 16 to be accompanied by an adult.

Physical Ability

Getting in and out of the simulator is physically demanding and requires good mobility, balance and co-ordination. The rudder pedals controls are like real aircraft and need good leg strength to operate them. Please make sure the pilot is aware of these constraints before purchasing a voucher. The cockpit is not suitable for wheelchairs.
