

Sim2do

Boeing / Lynx/ F35-B/Cessna

INFORMATION SHEET

Now, you can experience piloting the real thing in truly immersive, scratch-built simulators, with a complete replica cockpit, fully functional controls and tactile feedback, surrounding you in the sights, sounds and feel of the iconic machine. Built by Sim2do, everything from the design of the seats to overhead, at an extraordinary level of detail, to produce one of the most evocative, immersive simulators available on the market today.

Mission

Beginning with a briefing of the Cessna 172 training system, taxiing, take off and practice level flying manoeuvres and landing. Progressing to the briefing on something bigger, the Boeing 737-800 aircraft, you will get to take to the sky flying from a location of your choice. After that you will start with the briefing on how to fly an Army Lynx helicopter You will learn how to get the Lynx off the ground, flying straight and level then off for flight around New York City honing your skills as a helicopter pilot. Then the final briefing on the F35-B Lightning II fighter jet departing RAF Marham to Yarmouth, where you will find an aircraft carrier for your first landing. Finally you will depart the ship and return to base

Limitations

At Sim2do Flight Simulators, safety is our utmost priority. To ensure a safe and enjoyable experience for everyone, we ask that our customers meet the following restrictions:

Maximum Weight 130kg

Minimum Height 130cm

Maximum Height 200cm

Good eyesight

No under 10 and under 16 to be accompanied by an adult.

Physical Ability

Getting in and out of the simulator is physically demanding and requires good mobility, balance and co-ordination. The rudder pedals controls are like real aircraft and need good leg strength to operate them. Please make sure the pilot is aware of these constraints before purchasing a voucher. The cockpit is not suitable for wheelchairs.
